Profile

Final-year undergraduate in Information and Communication Technology at Rajarata University of Sri Lanka, seeking internship opportunities to apply web development skills and gain industry experience. Proficient in both front-end and back-end technologies, with a focus on creating dynamic websites and applications. Passionate about providing strategic solutions and solving real-world problems through technology.

Technical Skills

Programming Languages: HTML/CSS, JavaScript, Java, C#

Database Management: MySQL, MongoDB, MSSQL

Developer Tools: Visual Studio Code, GitHub, Jira, Figma

Frameworks and Libraries-NodeJS, ExpressJS, Django, Bootstrap, React, ASP.NET

Education

Rajarata University of Sri Lanka	2021-Present
---	--------------

Bachelor of Information and Communication Technology-BICT (Hons), Current GPA-3.69

SJ-Tutor	2021-2022
-----------------	-----------

Diploma in Information Technology

AN-Noor National School	2019-August
--------------------------------	-------------

G.C.E Advanced Level Exam

AN-Noor National School	2016-December
--------------------------------	---------------

G.C.E Ordinary Level Exam

Certification

Professional SLIIT Development Program - .NET Web Development (Present 2024 Dec-2025 Mar).

NoviTech R&D Pvt Ltd Certification-Full Stack Development.

MongoDB Tutorial -Great learning Academy ([Certificate](#)).

Web Development Course-Coursera ([Certificate](#)).

Java Course -Simplylearn ([Certificate](#)).

Projects and Research

Enhancing the accuracy of low-light images by leveraging Multi-Scale Histogram Fusion (MSHF) and GAN-driven refinement techniques. (Ongoing)

- By combining MSHF's ability to enhance contrast at multiple scales with GAN driven refinement, this study aims to produce high quality, detail-preserved images suitable for accurate classification using Convolutional Neural Networks (CNNs).

RenalWise Kidney Health Website (Third year project)

- Designed and developed front-end and back-end, including interactive features like a chatbot, community forum, and kidney donation functionality. (HTM5, CSS3, JS, Django, MySQL)

QR-Based Attendance System (Second Year Project)

- Developed a QR-based attendance system that allows students to mark attendance by scanning a unique QR. (HTML5, CSS3, JS, NodeJS, Mongodb)

Sri Lanka Tourism Friendly Website (First Year Project)

- Developed a user-friendly website promoting tourism in Sri Lanka, featuring key tourist destinations and cultural information. (HTML5, CSS3, JS, Bootstrap)

Portfolio Website (Individual Project)

- A personal portfolio website highlighting my web development skills and projects. ([My portfolio](#)). (HTML5, CSS3, JS)

Juice Bar Website (Individual Project)

- A responsive MERN-based website for my juice bar, allowing customers to view the menu with prices and leave reviews. Built with MongoDB, Express.js, React.js, and Node.js for a seamless and user-friendly experience across all devices.
